HIT Title: Select the best out of two answers to a question.

HIT Description: In this HIT you will be shown a question and two alternative answers.

Your goal is to:

1. Click on the answer that answers the question better.
2. If both answers are similar, select the one with the least extraneous information.
3. If both answers are similar, select the one with the best formatting (typos, punctuation, etc.)

Here is an example of question and a pair of answers:

Instructions:
- Click on the passage that answers the question better.
- If both answers are similar, select the one with the least extraneous information.
- If both answers are still similar, select the one with the best formatting.

Question: How was the Neverending Story film received?

Go Back to Previous Question

The film has a Rotten Tomatoes score of 82% based on reviews from 38 critics. The critical consensus reads: "A magical journey about the power of a young boy's imagination to save a dying fantasy land, The NeverEnding Story remains a much-loved kids adventure." Metacritic gives the film a score of 46/100 based on reviews from 10 critics.

This film was an Italian/German production in which Michael Ende himself played the role of the passenger in the train (who is told the story by Master Hora and writes it down). It appears that Ende, unhappy with how the film based on The Neverending Story did not follow the spirit of the book faithfully enough, requested that he was involved more directly in filming Momo.
